

Please do not permit the use of cell phones on commercial airline flights. The following is a brief list of reasons for my request.

1. Many people have important business to attend to when they arrive at their destination and require sleep during their flight. Sleep would most likely be interrupted if cell phones were in use.

2. Having traveled with babies and now grandbabies, I have done everything in my power not to disturb fellow passengers. When I work very diligently to sooth and hopefully get a baby to sleep, I would be terribly upset if a nearby passenger woke that baby up by shouting into their cell phone.

3. Pilots and flight attendants have enough on their minds in this day and age and don't need the added stress of passengers complaining about cell phone use.

Finally, if for some reason cell phone use is allowed, please have a section of the plane designated for cell phone users exclusively.
